MATERIAL CHANGE NARRATIVE

14. *Briefly* describe the nature and objectives of the proposed Material Change, including any exchange of funds between the parties (such as any arrangement in which one party agrees to furnish the other party with a discount, rebate, or any other type of refund or remuneration in exchange for, or in any way related to, the provision of Health Care Services) and whether any changes in Health Care Services are anticipated in connection with the proposed Material Change:

Reliant proposes to change its status from a tax-exempt Massachusetts MGL c. 180 corporation and public charity to a taxable Massachusetts MGL c. 180 corporation (either in its current corporate entity or as a new MGL c. 180 corporation), and to transfer its non-clinical assets to a Management Services Organization (MSO) owned by OptumCare. The MSO will provide administrative and other non-clinical support services to Reliant, which will continue to employ its physicians and other providers and contract with payors. As is required by MGL c. 180 §8A(c), following approval by the Massachusetts Attorney General's Office, Reliant will donate the fair market value of its net assets to an independent Massachusetts public charity to meet the health care-related needs of the communities served by Reliant. OptumCare will help to fund and support Reliant's master facilities plan, support efforts to recruit and retain high-quality physicians and other providers to the Central and Metro West areas of the state which will serve to improve the health status in the region by offering enhanced services to current and future Reliant patients. The Reliant physicians will retain their clinical practice autonomy, and OptumCare is dedicated to maintaining Reliant's Central and Metro West workforce. Reliant does not anticipate that any Health Care Services will be diminished in connection with the proposed Material Change. This arrangement will support the growth and expansion of Reliant's unique care model, which delivers value to the patient through the provision of high-quality care at lower total medical expense.

15. *Briefly* describe the anticipated impact of the proposed Material Change, including but not limited to any anticipated impact on reimbursement rates, care referral patterns, access to needed services, and/or quality of care:

Reliant does not anticipate that the proposed Material Change will have an immediate impact on reimbursement rates, care referral patterns, access to needed services, or quality of care. Over time, Reliant expects the Material Change to improve Reliant's ability to care for its patients and to provide high-value care.

DEVELOPMENT OF THE MATERIAL CHANGE

16. Describe any other Material Changes you anticipate making in the next 12 months:

At the present time, Reliant does not anticipate further Material Changes in the next 12 months. However, Reliant will provide any and all required Notices and regulatory applications to appropriate government agencies should that change.
