DESCRIPTION OF ORGANIZATION

11. *Briefly* describe your organization.

Harrington HealthCare System, Inc. ("HHCS") is a Massachusetts nonprofit corporation that owns and operates an integrated health system comprised of the following three affiliates: (1) Harrington Memorial Hospital, Inc. ("HMH"), which operates an acute care community hospital with two campuses located in Southbridge and Webster, Massachusetts; (2) Harrington Physician Services, Inc. ("HPS"), which operates a primary care and multi-specialty community medical practice that has offices in South Worcester County and includes the primary service area of the towns of Southbridge, Sturbridge, Charlton, Dudley, Wales, Webster, Holland, and Fiskdale, Massachusetts; as well as Brimfield, Spencer, Brookfield, East Brookfield, West Brookfield, and Oxford, Massachusetts; and Thompson and Woodstock CT; and (3) Harrington Healthcare Provider Organization Inc. ("HHPO"), a Massachusetts nonprofit corporation that operates a physician hospital organization in connection with HHCS's integrated health system. HHCS is the sole corporate member of HMH. HHPO's nonprofit membership is comprised of (1) Hospital Members; and (2) Physician Members. HMH is HHPO's sole Hospital Member. HHPO's Physician Members include physicians who have satisfied certain eligibility criteria set forth in HHPO's Bylaws including, but not limited to, being a member of HMH's Medical Staff in good standing. To the extent HHPO may be a "Provider Organization" as such term is defined in 958 CMR 7.02, it joins in this Notice of Material Change in connection with the Material Change described below.

TYPE OF MATERIAL CHANGE

12. Check the box that most accurately describes the proposed Material Change involving a Provider or Provider Organization:

- A Merger or affiliation with, or Acquisition of or by, a Carrier;
- A Merger with or Acquisition of or by a Hospital or a hospital system;
- Any other Acquisition, Merger, or affiliation (such as a Corporate Affiliation, Contracting Affiliation, or employment of Health Care Professionals) of, by, or with another Provider, Providers (such as multiple Health Care Professionals from the same Provider or Provider Organization), or Provider Organization that would result in an increase in annual Net Patient Service Revenue of the Provider or Provider Organization of ten million dollars or more, or in the Provider or Provider Organization having a near-majority of market share in a given service or region;
- Any Clinical Affiliation between two or more Providers or Provider Organizations that each had annual Net Patient Service Revenue of \$25 million or more in the preceding fiscal year; provided that this shall not include a Clinical Affiliation solely for the purpose of collaborating on clinical trials or graduate medical education programs; and
- Any formation of a partnership, joint venture, accountable care organization, parent corporation, management services organization, or other organization created for administering contracts with Carriers or third-party administrators or current or future contracting on behalf of one or more Providers or Provider Organizations.

13. What is the proposed effective date of the proposed Material Change? Promptly upon receipt of regulatory approvals.

MATERIAL CHANGE NARRATIVE

14. *Briefly* describe the nature and objectives of the proposed Material Change, including any exchange of funds between the parties (such as any arrangement in which one party agrees to furnish the other party with a discount, rebate, or any other type of refund or remuneration in exchange for, or in any way related to, the provision of Health Care Services) and whether any changes in Health Care Services are anticipated in connection with the proposed Material Change:

UMass Memorial Health Care, Inc. ("UMMHC"), is a Massachusetts nonprofit corporation that owns and operates an integrated health care system comprised of a network of hospitals and other service providers that serve residents of Central Massachusetts. UMMHC is the sole corporate member of UMass Memorial Community Hospitals, Inc. ("UMMCH") and certain other affiliates. The proposed material change involves the affiliation of HHCS with UMMHC, pursuant to which UMMCH will become the sole corporate member of HHCS. UMMHC will then become the "ultimate parent" of HHCS. HHCS and UMMHC believe that the proposed corporate affiliation (the "Project") will allow the parties to further their common nonprofit mission of promoting the health of the communities they serve, and will enhance HMM's ability to maintain its status as a high quality, financially secure community hospital, which will allow it to continue to meet and better respond to the health care needs of patients and the communities in its service area through the following:

- Permitting HHCS to have greater access to capital for service, equipment, and physical plant improvements
- Enabling HHCS to obtain more advanced health information technology that will enhance and expand the use of health data for accountable care and other value-based population health management
- Strengthening HHCS' ability to recruit physicians and other licensed professionals to the Harrington service area, which will improve access to primary and specialty care and support the provision of high quality and cost-effective care in community-based settings in the Harrington service area
- Fully integrating HHCS into UMMHC's Anchor Mission work through specific commitments regarding community investment funding to address social determinants of health and specific goals for increasing local hiring and inclusive, local and sustainable purchasing in the Harrington service area
- Fully integrating HHCS into UMMHC's Health Equity work including system level strategic work on addressing health disparities and diversity and inclusion within the workforce
- Maintaining, enhancing, and expanding behavioral health services

No consideration is being paid for the transaction. UMMHC is committed to keeping the current health care services provided by HHCS in the local communities, and, through clinical collaborations and capital investments, anticipates supporting and further enhancing those services. UMMHC has made specific commitments regarding capital investments, community investment funding, physician recruitment efforts, and the maintenance of acute care and other hospital service lines in the HHCS community. HHCS will retain significant autonomy and local control subject to the reserve powers that will be vested in UMMCH.

15. *Briefly* describe the anticipated impact of the proposed Material Change, including but not limited to any anticipated impact on reimbursement rates, care referral patterns, access to needed services, and/or quality of care:

The material change builds on the long-standing relationship between the parties and will allow a close and effective coordination between HHCS and UMMHC to enhance the quality of, expand access to, and lower the overall cost of the care they provide to their communities through:

- Population health initiatives that improve access to care in the Harrington service area
- Effective integration of care across a broad continuum of services from primary to tertiary care throughout a wide geographic area
- Building on the existing clinical collaborations and referral patterns between academic and community providers, with a focus on providing care in the most cost-effective and appropriate settings and the retention of more complex cases in the community through further specialist coverage and, where appropriate, telehealth support such as E-ICU services; the full utilization of the community settings is a high priority given the persistent capacity issues at UMass Memorial Medical Center and the need to preserve the Medical Center's resources for tertiary services and other services that cannot be delivered in a community setting
- Promoting the academic mission of UMMHC by enhancing and expanding clinical training opportunities in both academic and community environments

HHCS and UMMHC do not anticipate that the Project will have a significant impact on reimbursement rates.

Currently, both Harrington employed and independent community physicians participate in managed care contracts through HHPO, which already contracts with and participates in the UMMHC Managed Care Network. HMM's relative prices are generally comparable to UMMHC's community hospitals.

16. Describe any other Material Changes you anticipate making in the next 12 months:

UMMHC and HHCS provided notice of the Material Change to the Massachusetts Attorney General (10/6/2020) and MassHealth (10/9/2020).
