

COMMONWEALTH OF MASSACHUSETTS  
HEALTH POLICY COMMISSION

---

Advisory Council

May 13, 2015

# Agenda

- Enhancing Behavioral Health through the CHART Investment Program
- HPC's Substance Use Disorder Report and Recommendations
- HPC's Health Care Innovation Investment Program
- Health System Transformation and Enabling Policies/Support
- Schedule of Next Advisory Council Meeting (September 16, 2015)

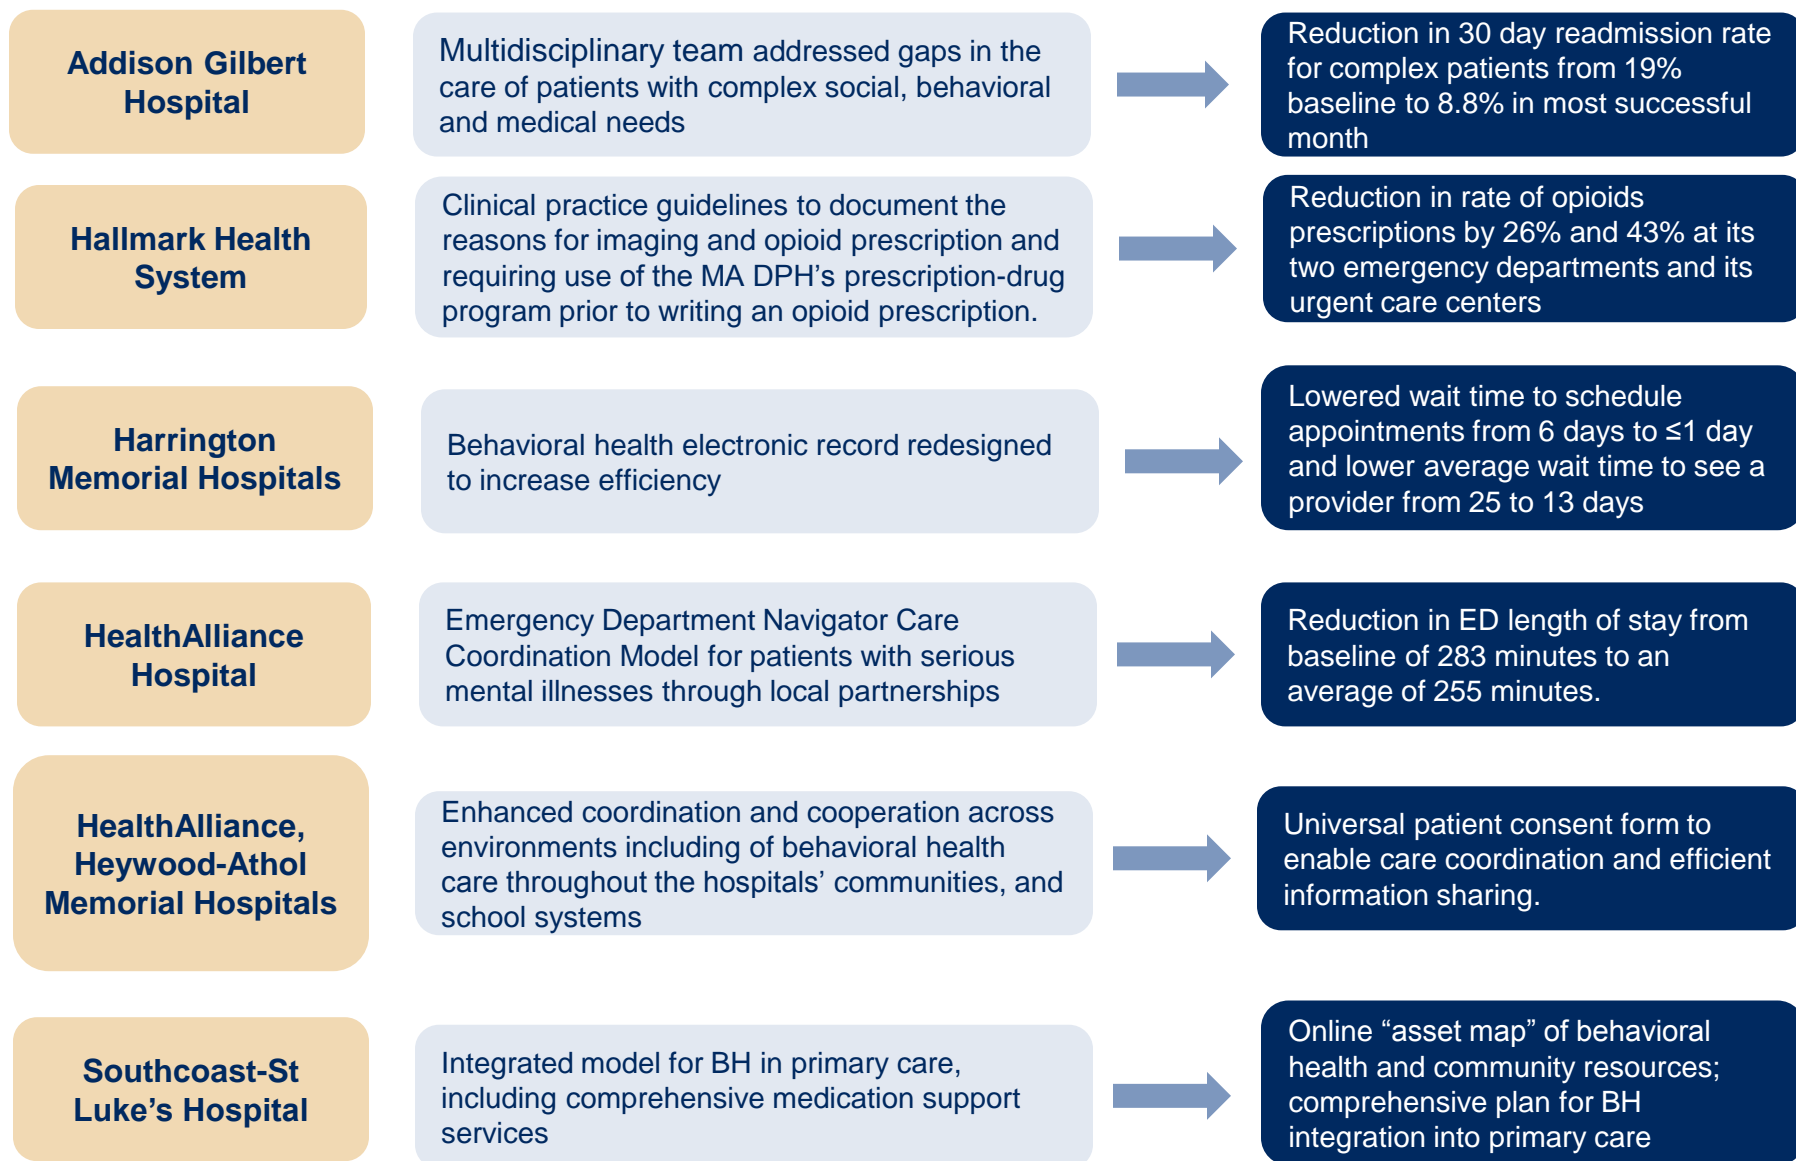

# Agenda

- **Enhancing Behavioral Health through the CHART Investment Program**
- HPC's Substance Use Disorder Report and Recommendations
- HPC's Health Care Innovation Investment Program
- Health System Transformation and Enabling Policies/Support
- Schedule of Next Advisory Council Meeting (September 16, 2015)

# Six CHART Phase 1 Initiatives tackled behavioral health challenges exclusively; many others included BH as a component of broader initiatives

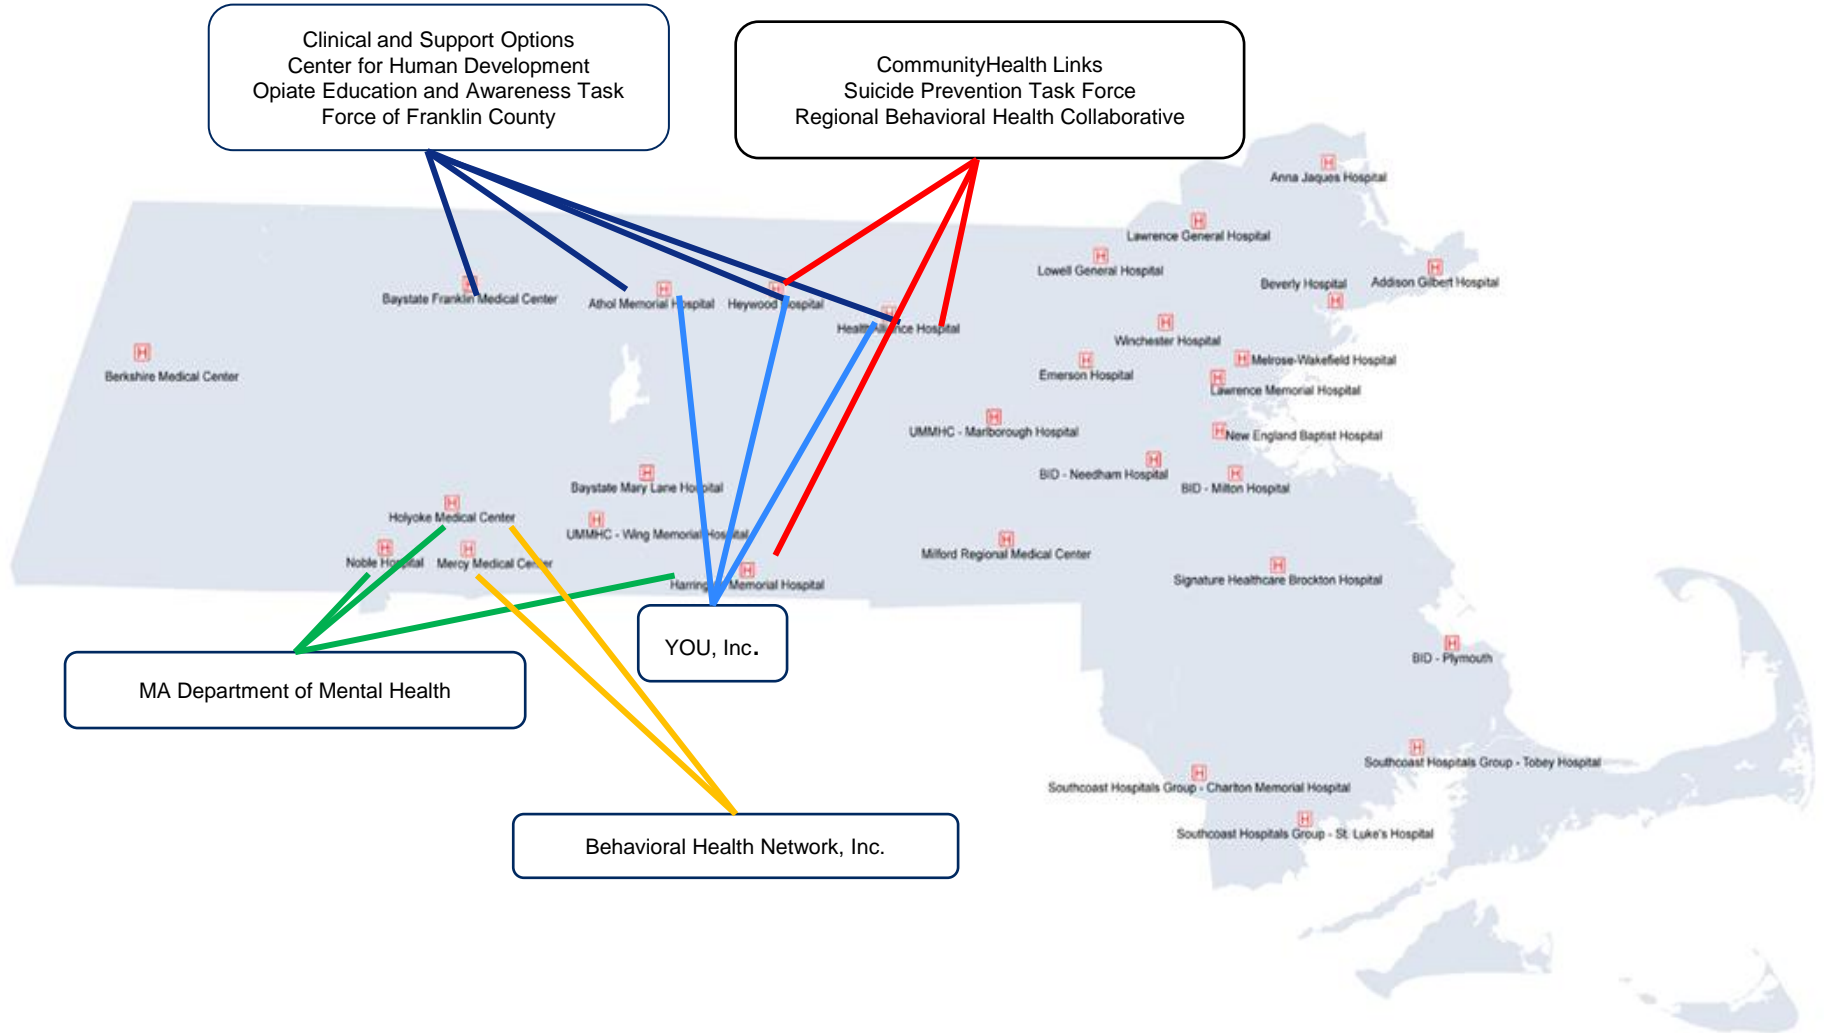

# Implementation Planning defines target populations; ~50% focused on BH; many others (high utilizers) have heavy BH component

High utilizers; socially complex; palliative care	High utilizers; socially complex; palliative care	ED utilizers with BH	All ED BH	All ED BH; BH EMS calls
High utilizers	High risk (utilization, disposition)	High utilizers; all BH ED	All BH	All admissions; low acuity ED visits 3-11p
High utilizers	High utilizers; high risk & those at risk of HU	Dual eligible; primary BH	All BH; students	Residents of underserved catchment area
High utilizers	High utilizers; discharges to SNF	All ED BH	Socially complex	<i>In progress</i>
High utilizers	High utilizers; discharges to PAC	All ED BH	Socially complex; BH; life-limiting conditions	<i>In progress</i>

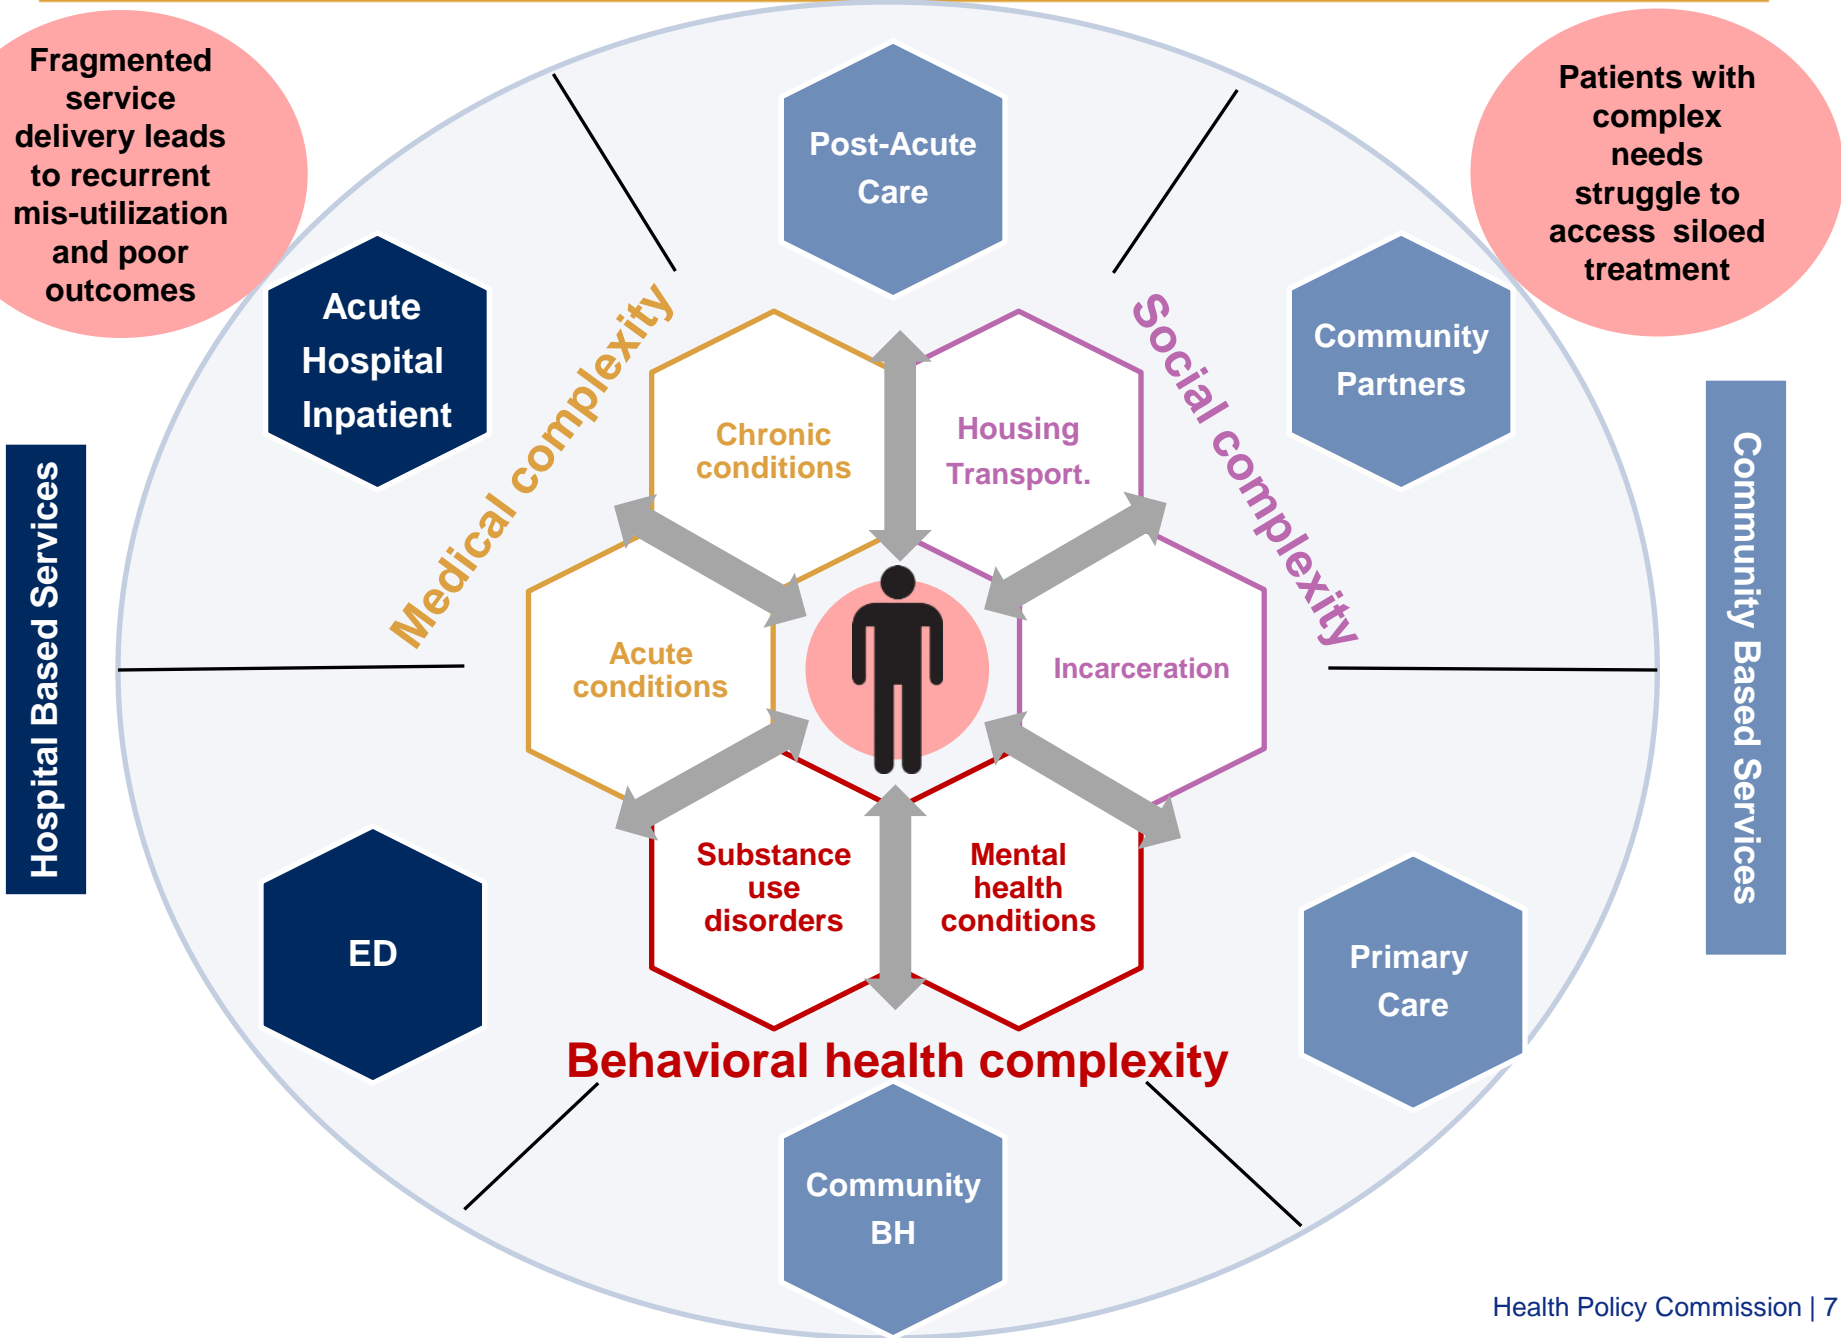

SUBJECT TO CHANGE: Updated 4.15.2015

# Community partnerships are being developed across the Commonwealth to support cross-continuum care for patients with complex needs

*Slide is illustrative of only some members of Central Mass partnerships*

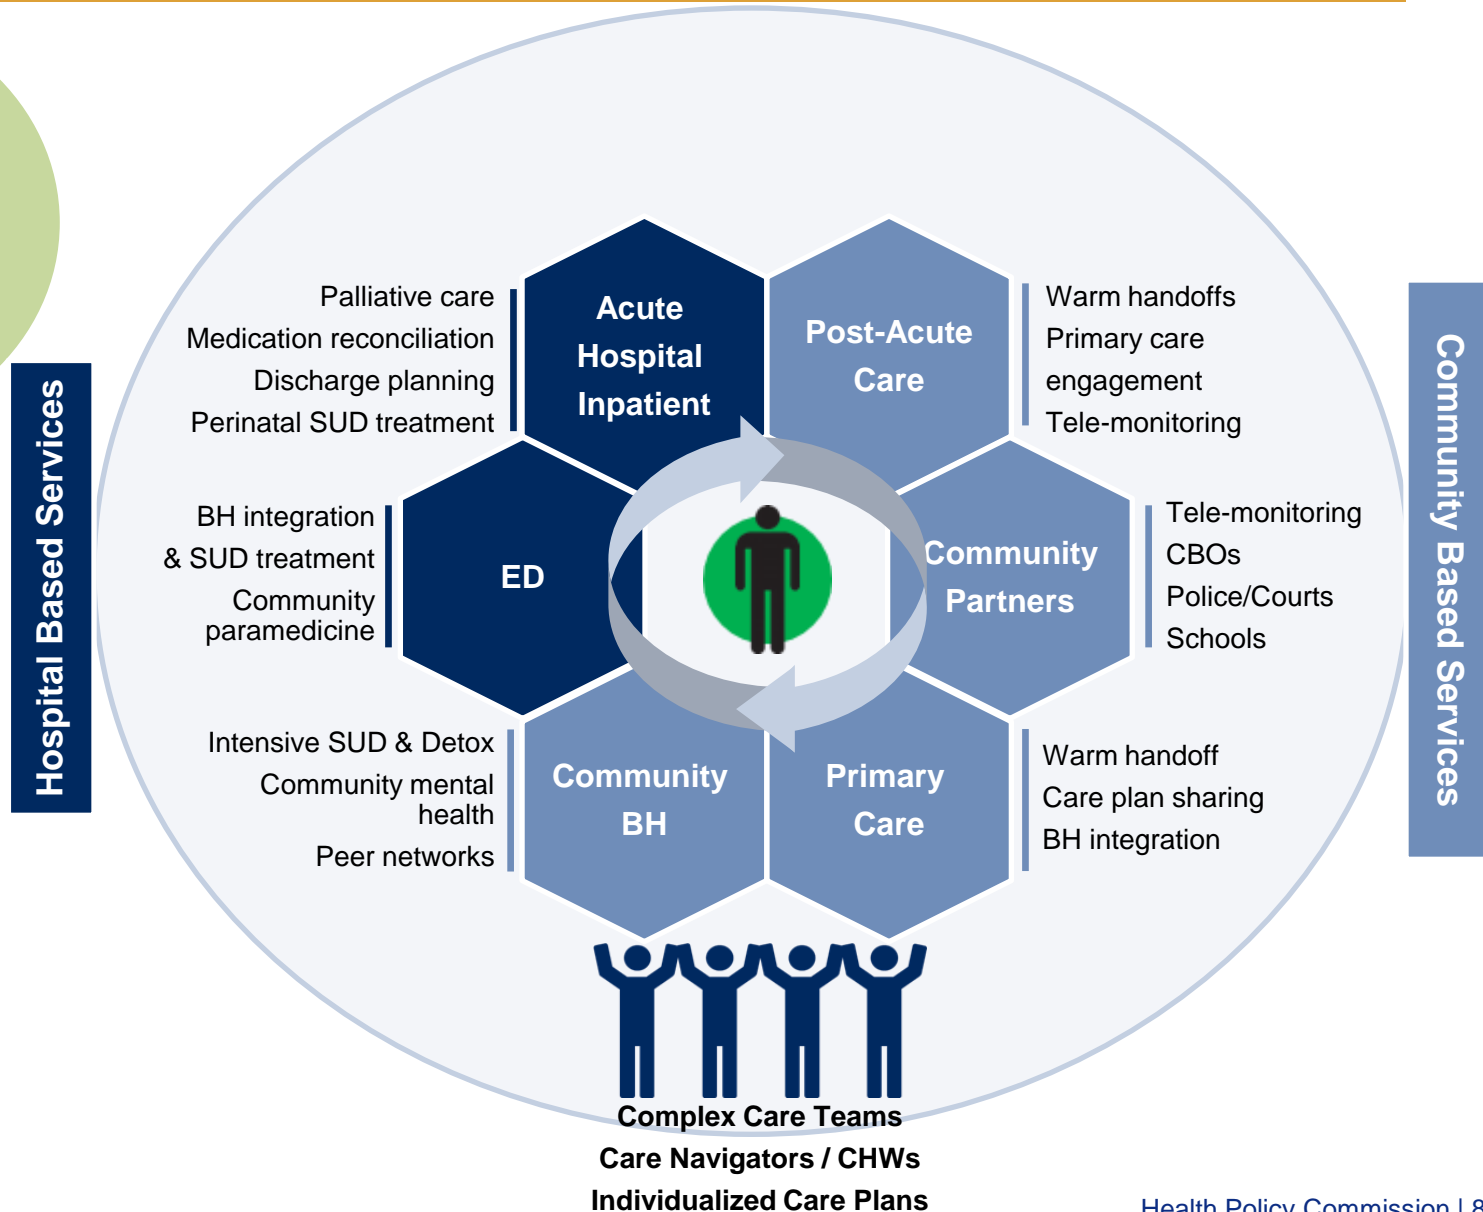

# Fragmented Service Delivery for Complex Needs

# CHART Care Teams: Coordinated patient care with high intensity services that leverage innovative technology

CHART funding & capacity-building promote integrated BH care that is:

- Patient-centered
- Coordinated
- Efficient

# Agenda

- Enhancing Behavioral Health through the CHART Investment Program
- **HPC's Substance Use Disorder Report and Recommendations**
- HPC's Health Care Innovation Investment Program
- Health System Transformation and Enabling Policies/Support
- Schedule of Next Advisory Council Meeting (September 16, 2015)

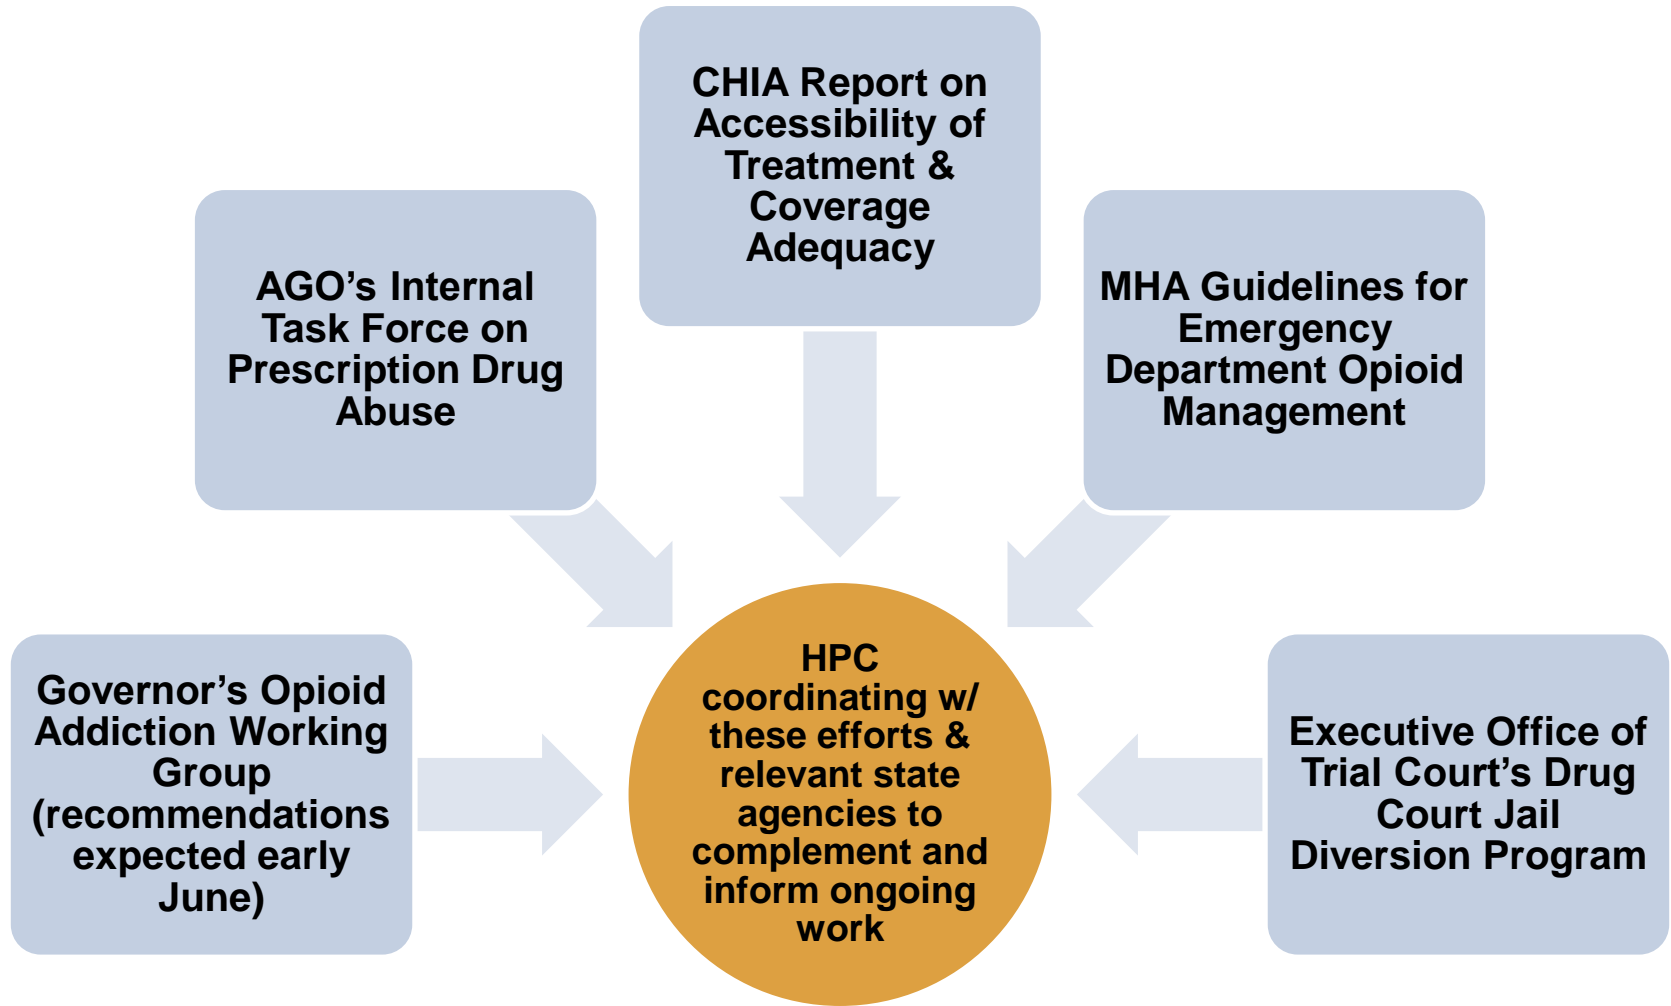

**As mandated by Section 30 of Chapter 258 of the Acts of 2014, HPC will make recommendations to the legislature on:**

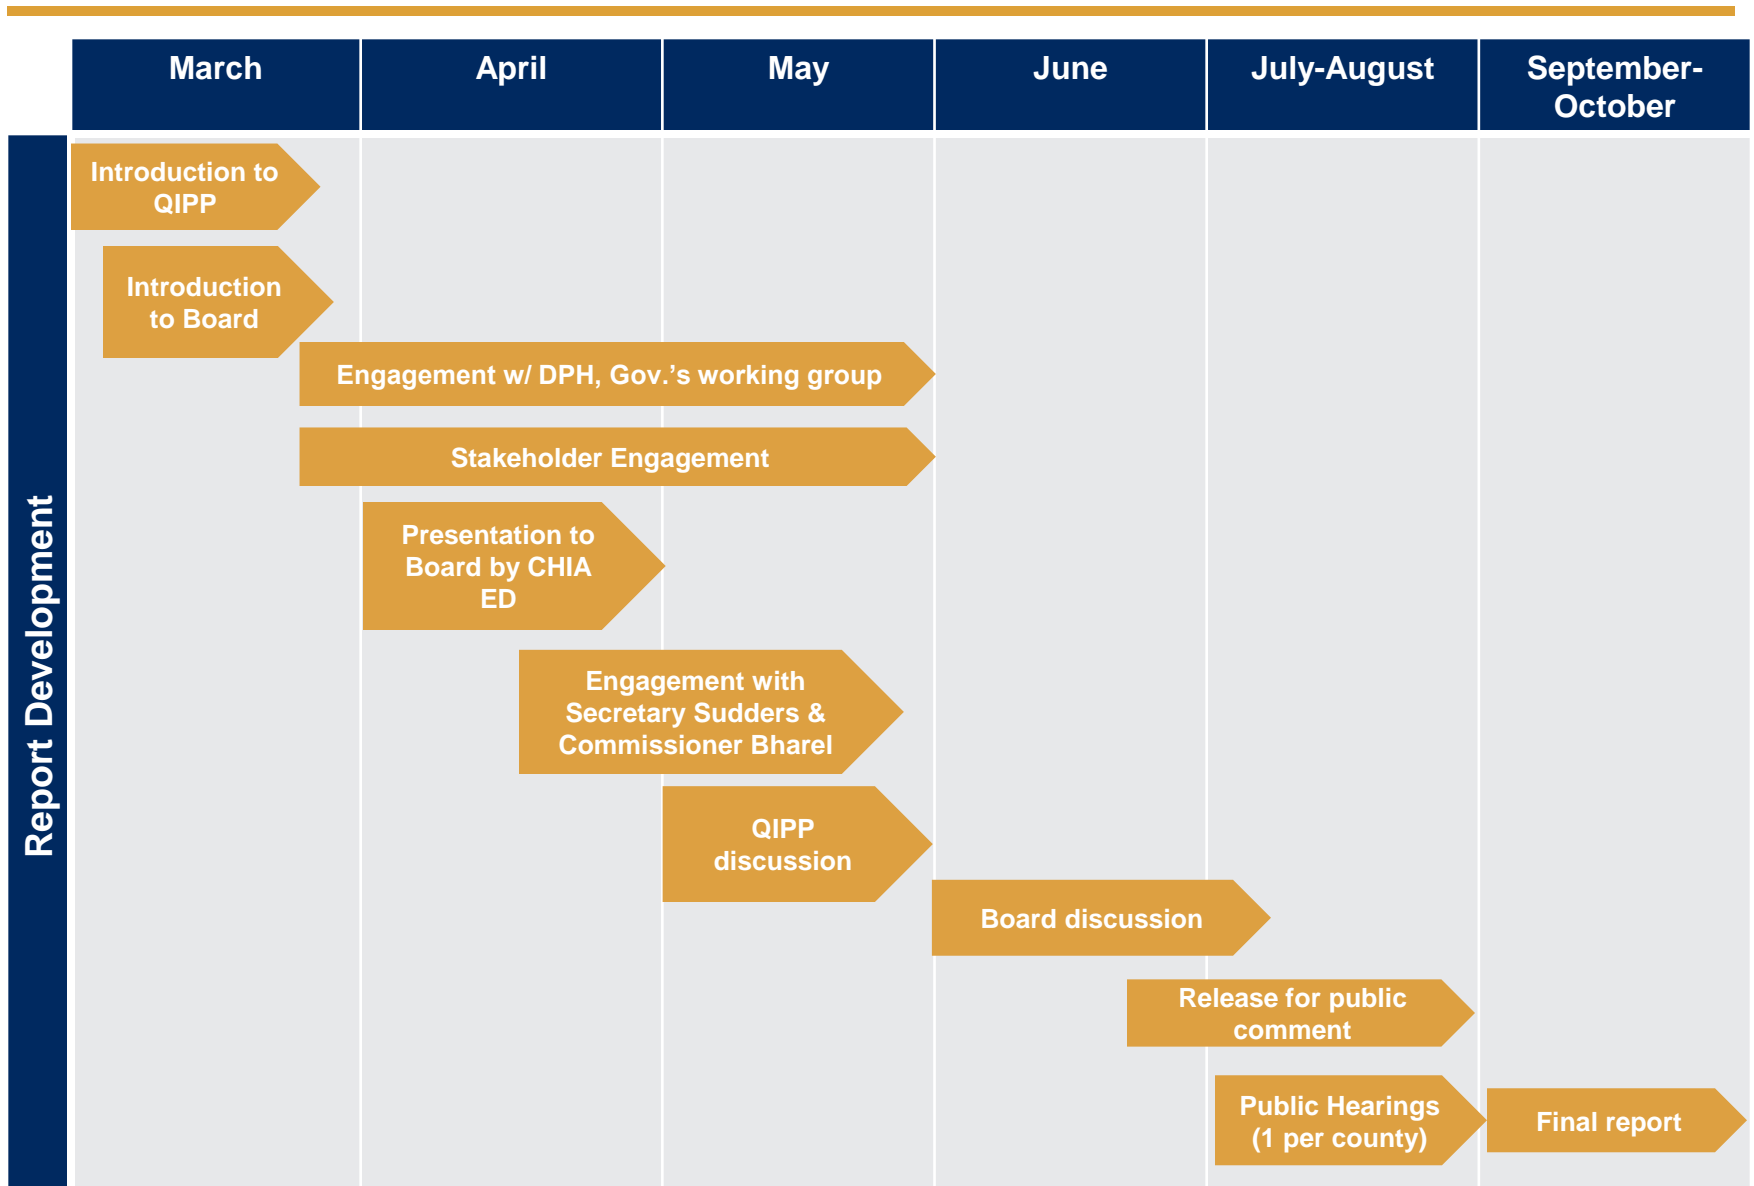

- Improving the adequacy of coverage by public and private payers where necessary;
- Improving the availability of opioid therapy where inadequate
- The need for further analyses by CHIA

# Major activities in the Commonwealth relating to HPC's 2015 SUD agenda

---

# Substance Use Disorder Report Timeline

## Basic Story Line

---

**Align incentives with evidence-based treatment protocols**

**Change  
in  
practice  
pattern**

```
graph TD; A[Align incentives with evidence-based treatment protocols] --> B(Change in practice pattern); B --> C[Responsible prescribing practices  
Improve accessibility and interoperability of PMP]; C --> D(Reduce supply); D --> E[Address addiction treatment needs];
```

**Responsible prescribing practices  
Improve accessibility and interoperability of PMP**

**Reduce  
supply**

**Increase diagnostic capacity in ED & ability to initiate buprenorphine where medically indicated  
Increase dissemination of naloxone to slow morbidity  
Increase availability of both medically assisted treatment and counseling / social supports**

**Address  
addiction  
treatment  
needs**

# Agenda

- Enhancing Behavioral Health through the CHART Investment Program
- HPC's Substance Use Disorder Report and Recommendations
- **HPC's Health Care Innovation Investment Program**
- Health System Transformation and Enabling Policies/Support
- Schedule of Next Advisory Council Meeting (September 16, 2015)

# Health Care Innovation Investment Program (HCII)

---

## Establishment of the Health Care Innovation Investment Program

- M.G.L. c. 6D § 7
- Funded by revenue from **gaming licensing fees** through the Health Care Payment Reform Trust Fund
- Total amount of **\$6 million**
  - *May increase if 3<sup>rd</sup> gaming license is awarded*
- Unexpended funds may to be rolled-over to the following year and do not revert to the General Fund
- **Competitive** proposal process to receive funds
- Broad eligibility criteria (*any payer or provider*)

## Purpose of the Health Care Innovation Investment Program

- To **foster innovation** in health care **payment** and service **delivery**
- To **align** with and **enhance** existing funding streams in Mass. (e.g., DSTI, CHART, MeHI, CMMI, etc.)
- To support and further efforts to meet the **health care cost growth benchmark**
- To improve **quality** of the delivery system
- **Diverse uses** include incentives, investments, technical assistance, evaluation assistance or partnerships

## HCII.1 Investment Options

The fund shall be used for the following purposes:

...foster innovation in health care payment and service delivery.

...establish a competitive process for health care entities to **develop** **implement** or **evaluate** promising models in health care payment and health care service delivery

### Develop

Present a problem to solve and focus funding on its potential solutions via a prize incentive

### Implement

Identify and fund existing solutions that are proven to work and bring them to scale

### Evaluate

Find organizations that are already developing solutions and evaluate their progress

Invest in a mix of approaches to span all stages of the innovation journey and manage the risk of innovation proportionate to the program priorities

## HCI.1 discussion questions

---

### Key questions

- *How to Invest.* Should the HPC prioritize spending on piloting new ideas, evaluating existing initiatives for effectiveness, or broadening the impact of successful models by bringing them to scale?
- *Where to Invest.* Please share your perspective on high-need areas for payment or delivery reform. What three challenges are unmovable in your organization?
- *With Whom to Invest.* What opportunities for partnership exist with change-makers in health care, public health, and other sectors?

# Agenda

- Enhancing Behavioral Health through the CHART Investment Program
- HPC's Substance Use Disorder Report and Recommendations
- HPC's Health Care Innovation Investment Program
- **Health System Transformation and Enabling Policies/Support**
- Schedule of Next Advisory Council Meeting (September 16, 2015)

# HPC's Accountable Care Strategy

---

**HPC  
Accountable Care Strategy**

**Certification  
(ACO &  
PCMH)**

**Model  
payment  
frameworks  
(APMs)**

**Technical  
Assistance**

**Enabling  
Policy  
Initiatives**

**Consumer  
Education &  
Marketing**

**Investments**

## Basis for certification programs

---

Ch.224 charges the HPC with establishing **voluntary certification programs** for patient centered medical homes (PCMHs) and accountable care organizations (ACOs), emphasizing cost containment, quality improvement, and patient protection

### ACO priority domains

- Governance
- Payment methodologies
- Health IT
- Consumer protection
- Behavioral health integration
- Price transparency
- Shared decision-making

### PCMH priority domains

- Behavioral health integration
- Population health
- Patient experience
- Resource stewardship

Transformation will require enabling policy initiatives, robust technical assistance, and investment

- Multi-payer model payment systems
- Data standardization & improved analytic capacity
- Focused investment to support provider capacity development and clinical workflow redesign

# Provider feedback on barriers to certification or system transformation

## Key areas of feedback

- 1 APMs should support transformation across provider types and different stages of development
- 2 Standardized and accessible payer data is needed for population health management & resource stewardship tracking
- 3 Challenges related to health information sharing barriers / privacy must be mitigated
- 4 Access gaps (e.g., to behavioral health providers) must be addressed
- 5 Payer product designs that promote delivery of high-value care are needed
- 6 Provider workforce capabilities need to be built and supported

# Enabling Policies and Supports to Facilitate System Transformation

## Priorities

## Enabling policies

## Enabling strategies

1

**APMs that support transformation across provider types and stages of development**

- Develop model APMs that support PCMH
- Support introduction of all-payer global budget arrangements for more advanced providers; phased risk-sharing for less advanced providers

- Contracting/risk management support (helping providers who are new to risk contracts, e.g., “model contract”)
- Provide TA to support clinical work flow redesign
- Invest in care management, risk management, reconfiguration, etc.

2

**Standardized and accessible payer data for population health management & resource stewardship tracking**

- Payers should provide routine, timely, and standardized performance reports and raw claims data
- Push development of statewide capability for real-time patient notification (ADT feeds/notices)
- Support quality measure alignment and increase utilization of outcome-based measures
- Promote alignment of risk adjustment methods across payers (with a focus on bringing in risk adjusters for socioeconomic status)

- Provide investment and technical support to develop provider analytic capabilities to use internal, payer, and public information for performance improvement

# Enabling Policies and Supports to Facilitate System Transformation

Priorities	Enabling policies	Enabling strategies
<p><b>3</b></p> <p>Mitigate challenges related to health information sharing barriers / privacy</p>	<ul style="list-style-type: none"> <li>Promote standardized consent processes to reduce barriers to information sharing; facilitate data sharing of areas requiring distinct consent</li> <li>Examine opportunity to shift to opt-out consent on Mass Hlway</li> </ul>	<ul style="list-style-type: none"> <li>Technical support to help providers identify and implement best practices for patient consent (e.g., standard consent workflows) and data sharing (e.g., 'model' data sharing agreements)</li> </ul>
<p><b>4</b></p> <p>Address provider access gaps</p>	<ul style="list-style-type: none"> <li>Promote payment for telehealth services to enhance access to limited clinical resources such as BH specialists</li> <li>Enhance workforce capability (e.g., scope of practice regulations)</li> <li>Link providers with non-medical but necessary support services</li> </ul>	<ul style="list-style-type: none"> <li>Develop tool to capture availability of community resources (community resource and outpatient provider directory) with correlating performance information; searchable &amp; up to date</li> <li>Provide access to workforce training opportunities (e.g., in BHI)</li> <li>Regional high-intensity care models for superutilizers (e.g., Alameda / Spectrum models of ambulatory ICUs)</li> </ul>

# Enabling Policies and Supports to Facilitate System Transformation

## Issues:

## Enabling policies

## Enabling strategies

5

**Enhance payer product design to promote delivery of high-value care**

- Align health insurance product designs with goals of care delivery models (value-based product design, direct provider contracting)
- Examine network adequacy standards to maximize efficacy of value based products

- Facilitate enhanced consumer decision making around use of high value providers (e.g., higher price does not equal better care)
- Conduct patient engagement campaign (e.g., healthy lifestyles, education on clinical options, more care does not equal better care)
- Facilitate employer engagement – in steering employees to high-value products through health insurance exchanges or multiple plan offerings with defined contributions, and incentives for wellness programs and use of high-value providers

6

**Build and support provider workforce capabilities**

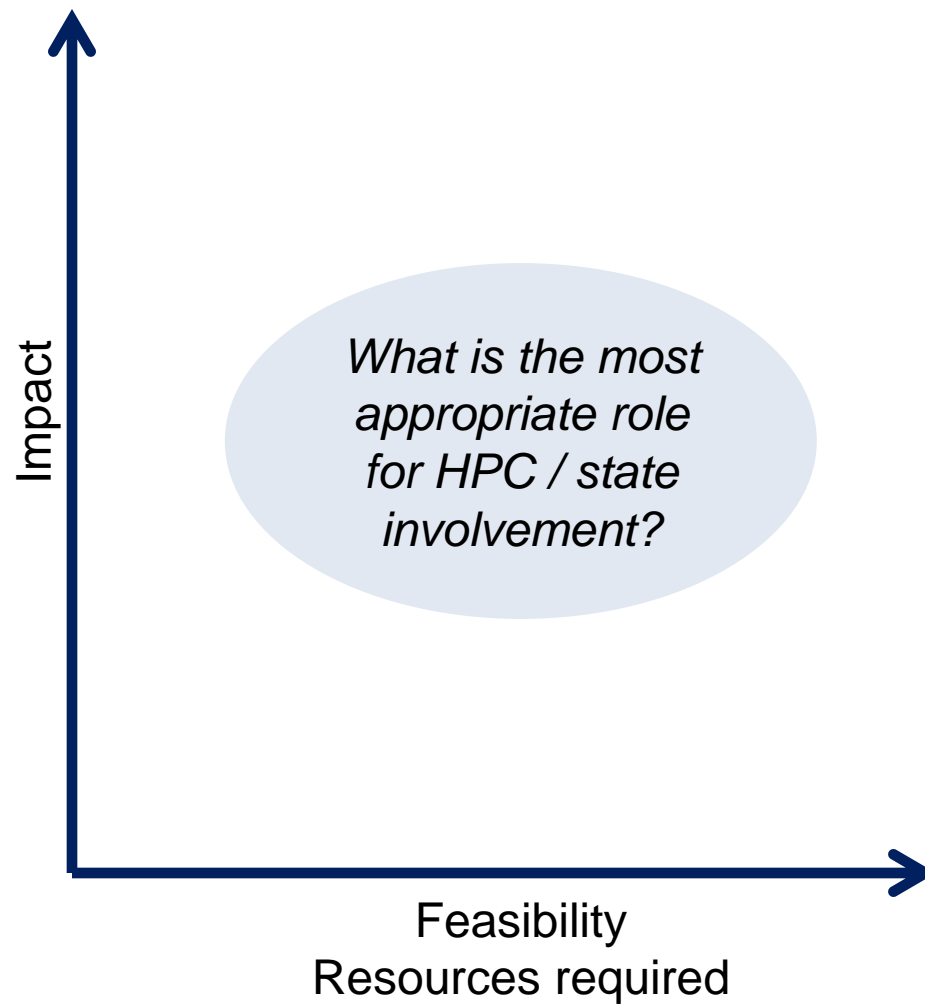

- Promote payment and regulatory policies that encourage practice at the top of license, including team based care models and evolving clinical work flow design to support such approaches to care
- Reimbursement for care management, risk management, data analytics

- Technical supports that include targeted workforce trainings
- Adjusting capitated budgets to include all practice functions related to managing patient care

## How should HPC prioritize enabling strategies?

---

# Agenda

- Enhancing Behavioral Health through the CHART Investment Program
- HPC's Substance Use Disorder Report and Recommendations
- HPC's Health Care Innovation Investment Program
- Health System Transformation and Enabling Policies/Support
- **Schedule of Next Advisory Council Meeting (September 16, 2015)**
