11. Briefly describe your organization.

Greater Boston Urology, LLC ("GBU"), a Massachusetts limited liability company, is a multi-specialty urology practice that was founded in 2010 and is headquartered in Dedham, Massachusetts. GBU operates seven locations throughout the state of Massachusetts to deliver urology, urogynecology, radiology, and pathology services to patients. GBU is currently owned by sixteen physician partners.

Type of Material Change

12. Check the box that most accurately describes the proposed Material Change involving a Provider or Provider Organization:

- A Merger or affiliation with, or Acquisition of or by, a Carrier;
- A Merger with or Acquisition of or by a Hospital or a hospital system;
- Any other Acquisition, Merger, or affiliation (such as a Corporate Affiliation, Contracting Affiliation, or employment of Health Care Professionals) of, by, or with another Provider, Providers (such as multiple Health Care Professionals from the same Provider or Provider Organization), or Provider Organization that would result in an increase in annual Net Patient Service Revenue of the Provider or Provider Organization of ten million dollars or more, or in the Provider or Provider Organization having a near-majority of market share in a given service or region;
- Any Clinical Affiliation between two or more Providers or Provider Organizations that each had annual Net Patient Service Revenue of \$25 million or more in the preceding fiscal year; provided that this shall not include a Clinical Affiliation solely for the purpose of collaborating on clinical trials or graduate medical education programs; and
- Any formation of a partnership, joint venture, accountable care organization, parent corporation, management services organization, or other organization created for administering contracts with Carriers or third-party administrators or current or future contracting on behalf of one or more Providers or Provider Organizations.

13. What is the proposed effective date of the proposed Material Change? Upon receipt of regulatory approvals.

Material Change Narrative

14. Briefly describe the nature and objectives of the proposed Material Change, including any exchange of funds between the parties (such as any arrangement in which one party agrees to furnish the other party with a discount, rebate, or any other type of refund or remuneration in exchange for, or in any way related to, the provision of Health Care Services) and whether any changes in Health Care Services are anticipated in connection with the proposed Material Change:

GBU intends to form GBU MSO, LLC ("MSO"), as a Delaware limited liability company, and contribute certain non-clinical assets to the MSO in exchange for equity. MSO will serve as a management services organization that will provide administrative and other non-clinical support services to GBU. In connection with a subsequent proposed transaction, U.S. Urology Partners, LLC ("USUP"), a Delaware limited liability company, will purchase the equity of the MSO. GBU will also undergo a change in ownership, pursuant to which one or more licensed physicians will become the owner of the equity in GBU. GBU will continue to employ its physicians and maintain its existing clinical operations as well as its name, NPI number, FEIN, current locations, and health care services. +

15. Briefly describe the anticipated impact of the proposed Material Change, including but not limited to any anticipated impact on reimbursement rates, care referral patterns, access to needed services, and/or quality of care:

GBU does not anticipate any impact on reimbursement rates, care referral patterns, access to needed services, or the quality of care as a result of the proposed Material Change. GBU expects that over time USUP's expertise in management and administrative services will improve GBU's ability to provide high quality, cost effective care to its patients.

Development of the Material Change

16. Describe any other Material Changes you anticipate making in the next 12 months:

GBU does not currently anticipate any additional Material Changes in the next 12 months. In the event of a change, GBU will provide any and all Notices of Material Change and regulatory applications to the applicable governmental entities.

17. Indicate the date and nature of any applications, forms, notices or other materials you have submitted regarding the proposed Material Change to any other state or federal agency:

No such documents are required to be submitted in connection with the proposed Material Change; accordingly, GBU has not submitted any such documents to any other state or federal agency.

Supplemental Materials
