- A Merger with or Acquisition of or by a Hospital or a hospital system;
- Any other Acquisition, Merger, or affiliation (such as a Corporate Affiliation, Contracting Affiliation, or employment of Health Care Professionals) of, by, or with another Provider, Providers (such as multiple Health Care Professionals from the same Provider or Provider Organization), or Provider Organization that would result in an increase in annual Net Patient Service Revenue of the Provider or Provider Organization of ten million dollars or more, or in the Provider or Provider Organization having a near-majority of market share in a given service or region;
- Any Clinical Affiliation between two or more Providers or Provider Organizations that each had annual Net Patient Service Revenue of \$25 million or more in the preceding fiscal year; provided that this shall not include a Clinical Affiliation solely for the purpose of collaborating on clinical trials or graduate medical education programs; and
- Any formation of a partnership, joint venture, accountable care organization, parent corporation, management services organization, or other organization created for administering contracts with Carriers or third-party administrators or current or future contracting on behalf of one or more Providers or Provider Organizations.

13. What is the proposed effective date of the proposed Material Change? Anticipated Q2 CY 2024 following receipt of all required approvals.

## Material Change Narrative

14. *Briefly* describe the nature and objectives of the proposed Material Change, including any exchange of funds between the parties (such as any arrangement in which one party agrees to furnish the other party with a discount, rebate, or any other type of refund or remuneration in exchange for, or in any way related to, the provision of Health Care Services) and whether any changes in Health Care Services are anticipated in connection with the proposed Material Change:

Collaborative Care Holdings, LLC, through its OptumCare business ("OptumCare"), Steward Operations Holdings LLC, a Delaware limited liability company ("SOH", and collectively with OptumCare, the "Parties") propose to enter into a transaction (the "Transaction") whereby OptumCare will acquire all of the issued and outstanding shares of Stewardship Health, Inc., a Delaware corporation ("SHI"), as more particularly described in this Notice. SHI is the sole corporate member of Stewardship Health Medical Group, Inc., a Massachusetts corporation organized under M.G.L. ch. 180 ("SHMG"), the sole stockholder of Steward Health Care Network, Inc., a Delaware corporation ("SHCN"), and an equityholder in related businesses (collectively, "Stewardship"). OptumCare will help to fund and support Stewardship's strategic and operating plans and support SHMG's efforts to retain and recruit high-quality primary care physicians and other providers to eastern Massachusetts, which will serve to improve the health status in the region by offering enhanced services to current and future SHMG patients. The SHMG providers will retain their clinical practice autonomy, and OptumCare is dedicated to maintaining Stewardship's workforce. OptumCare does not anticipate that any health care services will be diminished in connection with the proposed Material Change. This arrangement will support the growth and expansion of Stewardship's care model, which delivers value to the patient through the provision of value-based, high-quality care at lower total medical expense.

15. *Briefly* describe the anticipated impact of the proposed Material Change, including but not limited to any anticipated impact on reimbursement rates, care referral patterns, access to needed services, and/or quality of care:

OptumCare does not anticipate that the proposed Material Change will have an immediate impact on care referral patterns, access to needed services, quality of care, or reimbursement rates. OptumCare will leverage the clinical processes and population health programs utilized by its current affiliated medical practices, which have consistently achieved lower total cost of care as reported by the Health Policy Commission's annual cost trends report. Over time, and building upon its long-standing and proven track record in Massachusetts of providing low cost, high value care through its approach to value based care, OptumCare expects the Material Change to improve Stewardship's ability to care for its patients. OptumCare anticipates that the proposed Material Change will allow for continued uninterrupted access to needed health care services.

## Development of the Material Change

16. Describe any other Material Changes you anticipate making in the next 12 months:

At the present time, OptumCare does not anticipate further Material Changes in the next 12 months. However, OptumCare will provide any and all required Notices and regulatory applications to appropriate government agencies should that change.

17. Indicate the date and nature of any applications, forms, notices or other materials you have submitted regarding the proposed Material Change to any other state or federal agency:

The Parties have submitted a filing required under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. The Parties will provide any notices and make any other filings with government agencies as may be required in support of this Material Change.
