- 15. *Briefly* describe the anticipated impact of the proposed Material Change, including but not limited to any anticipated impact on reimbursement rates, care referral patterns, access to needed services, and/or quality of care:
  - NOA is negotiating payor contracts that it anticipates will be comparable with existing and current market rates. BSSC, as part of NOA, will shift sites of service to ambulatory surgery centers, in-office, and other lower cost settings, which will improve patient access to needed services. BSSC, as party of NOA, will create infrastructure to support value-based care model development on top of existing fee for service contracts with the aim of driving improved health outcomes and enhancing patient care in the community. Notwithstanding the foregoing, BSSC, as part of NOA, will continue to support community hospitals and will maintain existing hospital privileges and services arrangements without disrupting existing referral relationships. Economic considerations include cost of living adjustments where
