

**MAKE HEALTHCARE AFFORDABLE**  
COALITION

DELIVERED VIA HAND

**To:** Dr. Stuart Altman and members of the Health Policy Commission  
50 Milk Street, 8<sup>th</sup> Floor, Boston, MA

**From:** Make Healthcare Affordable Coalition, representing 8,000 concerned residents from across Massachusetts

**Re:** Request to stop the BI-Lahey 13 hospital Mega Merger

Dear Dr. Altman,

Massachusetts has for decades shown national leadership on the issue of health care access. We have also passed laws to ensure that health care is affordable for all residents.

But today we face a new challenge. We are confronted with a 13-hospital mega merger between Beth Israel and Lahey Health, which is soon being decided by state regulators. The merger seeks to form a new health care giant to rival Partners HealthCare, which is the largest and most expensive hospital system in the state.

We thank the Health Policy Commission for revealing that the BI-Lahey merger will dramatically increase the cost of care by approximately \$250 million per-year or more, for Massachusetts residents – way beyond the state's cost-containment benchmark.

More troubling was the HPC's findings that the merger will exclude patients who do not generate the types of big profits it is chasing, such as communities with low-income, non-white and Latino residents, or those who rely on Medicaid coverage.

Rather than offer meaningful solutions to address the HPC's data-driven findings on cost and access, BI-Lahey decided to attack the HPC's reputable and objective data-driven analyses.

For these reasons, we are calling on the HPC to refer this merger to the Attorney General and Department of Public Health with a recommendation that this merger not go into effect based on the findings of the HPC's Cost and Market Impact Review.

Without a doubt, if the merger is allowed, Massachusetts will devolve into a two-tiered health care system where wealthy individuals can access expensive care that works for them, while low-income people and communities of color who rely on Medicaid have fewer choices and less access to care.

This is yet another leadership opportunity for Massachusetts to set a national example that protects access to affordable health care for all residents – regardless of their socioeconomic status, race, or ethnicity.

Thank you for your continued leadership on this issue. Please share this with members of the Health Policy Commission.

*-- The Make Healthcare Affordable Coalition.  
(8,000 signatures enclosed from residents across Massachusetts)*
